APPLICATION NOTE AN042
Mega_Link 2 working with an
## Industrial 4G and/or DSL Router

---

Mega_Link 2 normally operates using its internal UHF radio module for deregulated licence-exempt low power radio applications or via its internal 4G LTE CAT-1 modem.

Mega_Link 2 can also be used to communicate via an external industrial router operating using 4G and/or DSL or Fibre to the premises.

Mega_Link 2 protects its data using AES-256 encryption on all transmitted messages.

An example external industrial router is the Cisco IR1101 series.

Mega_Link 2 with 4G and/or DSL Router

Further Information:

Please contact Churchill Controls to request example Mega_Link 2 Ethernet TCP/IP configuration files.
